## Biomedical Research Fellowship Opportunity!

### COBRE Fellowships for Summer 2017

#### Center for Biomedical Research Excellence in Emerging/Reemerging Infectious Diseases

The Idaho Veterans Research and Education Foundation (IVREF) is now accepting applications for the **COBRE Research Fellowship** program. These competitive fellowships are awarded annually to up to four students who are interested in exploring careers in biomedical research or related healthcare fields. The program runs from late May to August.

**The COBRE Fellowship** provides an opportunity for students to have a 10-week mentored, summer biomedical research opportunity in the basic science laboratories of established Infectious Disease investigators at the Boise VA Medical Center. The intent is to provide a “real-life” experience for those students who may be considering further graduate education and/or a career in the healthcare sciences.

Selection is competitive. Each COBRE Fellow will receive \$6,000 for the 10-week program. The award also includes travel to Idaho’s annual *IDEA Network of Biomedical Research Excellence (INBRE)* meeting in Moscow, Idaho where student research fellows will present poster abstracts of their scientific findings. The Fellowships are funded by a COBRE (Center for Biomedical Research Excellence) grant from the National Institutes of Health to the Idaho Veterans’ Research and Education Foundation (IVREF), which is a non-profit affiliate of the Boise VA Medical Center’s Research and Development Service.

**Equal Opportunity Employer:** IVREF is an EEO institution. We encourage applications from men and women of all ethnicities and religions, and members of underrepresented groups. All candidates must successfully complete a Federal criminal background check.

**Interested applicants:** Applicants must be current undergraduate students, medical students, or recent graduates from an accredited Idaho college or university, or WWAMI program. Please send an email expression of interest with subject line “COBRE FELLOWSHIP” to Amy Bryant, Ph.D. at [abryant@ivref.org](mailto:abryant@ivref.org). More information can be found at [www.ivref.org](http://www.ivref.org).

**Application Deadline: January ~~31~~<sup>19</sup>, 2017**
